SCIENTIFIC JOURNAL
OF RIGA TECHNICAL UNIVERSITY

**BOUNDARY FIELD PROBLEMS
AND COMPUTER SIMULATION**

52 ISSUE

RTU IZDEVNIECĪBA

RIGA – 2013

Chief Editor:

A. Spalviņš, Dr.sc.ing., Riga Technical University, Latvia

Editorial Board:

A. Koliškis, Dr.math., Riga Technical University, Latvia
I. Volodko, Dr.math., Riga Technical University, Latvia
I. Iltiņš, Dr.sc.ing., Riga Technical University, Latvia
M. Iltiņa, Dr.sc.ing., Riga Technical University, Latvia
V. Kremeņeckis, Dr.phys., Riga Technical University, Latvia
R. Vaillancourt, Dr.math., University of Ottawa, Canada
D. F. M. Torres, Dr.math., University of Aveiro, Portugal
P. Greber, Dr.habil.ing., Dresden Institute of Technology, Germany
R. Thunvik, Dr.habil.ing., Royal Institute of Technology, Sweden
O.V. Mul, Dr.math., Ternopil State Technical University, Ukraine
I. Eglīte, M.sc.ing., Riga Technical University, Latvia

Editorial Board Address:

Environment Modelling Centre
Faculty of Computer Science and Information Technology
Riga Technical University

1/4 Meza Street
Riga, LV-1007
Latvia

From the Editorial Board

This volume is the current 52th thematic issue (since 1999, with a slightly changed title), the lasting international series “Boundary Field Problems and Computers”, issued by RTU since 1966. The volume may be of importance to specialists and students interested in computer simulation of various environmental phenomena formulated as boundary field problems.

CONTENT

<i>A. Spalvins, J. Slangens, I. Lace, K. Krauklis, O. Aleksans</i> Survey of Methods Used to Develop the Hydrogeological Model of Latvia	4
<i>A. Spalvins, J. Slangens, I. Lace, K. Krauklis, O. Aleksans, V. Skibelis, A. Macans, I. Tabaka</i> Mapping for the Gauja River Basin District by Using Results Provided by the Hydrogeological Model of Latvia	13
<i>A. Spalvins, J. Slangens, I. Lace, K. Krauklis, O. Aleksans</i> Groundwater Flow Balance of the Gauja River Basin District	19
<i>A. Traškova</i> Prediction Creation for the Period of 2012-2025 of Kurzeme Region Forests	26
<i>V. Doroshenko, O. Mul, O. Kravchenko</i> Methods of Inductive Modeling and Prediction of Complex Casting and Metallurgical Processes.....	32
<i>S. Cernajeva</i> Mathcad Application to Math Problem Solving for the Students of the Faculty of Civil Engineering of Riga Technical University.....	37
<i>G. Burov, J. Melderis</i> Serviceability Analysis of Algorithms for Diagnosing Technical Objects	41
<i>G. Burov</i> The Computer Diagnosing of Technical Objects with the Use of Pattern Recognition Principles	46
